Art Unit: 3634

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2,3,17 are rejected under 35 U.S.C. 103(a) as being unpatentable over ES Patent No. 1,052,733 in view of ES Patent No. 1,051,839. ES Patent No. 1,052,733 discloses an articulated arm and forearm 10,11 including securing/articulation configurations 6-9,16-20 and a flexible pulling element 14. While ES Patent No. 1,052,733 does not specifically set forth particulars of the securing/articulation configurations as claimed including among other elements an elastic element, ES Patent No. 1,051,839 discloses an articulated awning arm including securing/articulation configurations 1,2a,5-9 (see figure 1) and an elastic element 3, wherein, to incorporate these teachings into the articulate arm and forearm of ES Patent No. 1,052,733 for the purpose of facilitating the movement of the awning would have been obvious to one of ordinary skill in the art.

The applicant states that the cited prior art does not disclose or suggest that the bearing means comprises conical friction bearings. This is not convincing for ES Patent No. 1,052,733 discloses conical friction bearings 19 and ES Patent No. 1,051,839 discloses conical friction bearings 29,33.

2. Claims 4-16,18 are allowed.

Art Unit: 3634

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
